REMARKS

In the Official Action mailed **28 March 2007**, the Examiner reviewed claims 49-66. Claims 49-50, 54-56, 60-62, and 66 were rejected under 35 U.S.C. §103(a) as being unpatentable over D. Richard Kuhn (USPN 6,023,765, hereinafter "Kuhn") in view of Sweet et al (USPub 2002/0031230, hereinafter "Sweet"). Claims 51-53, 57-59, and 63-66 were rejected under 35 U.S.C. §103(a) as being unpatentable over Kuhn, in view of Sweet, and further in view of Minear et al. (USPN 5,983,350 hereinafter "Minear").

Rejections under 35 U.S.C. § 103(a)

Independent claims 49, 55, and 61 were rejected as being unpatentable over Kuhn, in view of Sweet. Applicant respectfully points out that the present invention is directed to a **special administrator** (i.e., a security officer) that is the only administrator that can perform administrative functions on a user account associated with **sensitive users** (see page 7, lines 9-11; page 8, lines 11-13; page 8, lines 19-20; and page 9, line 19 to page 10, line 6 of the instant application).

There is nothing in Kuhn or Sweet, either separately or in concert, which suggests a special administrator that is the only administrator that can perform administrative functions on **a user account associated with sensitive users**.

Hence, Applicant respectfully submits that independent claims 49, 55, and 61 as presented are in condition for allowance. Applicant also submits that claims 50-54, which depend upon claim 49, claims 56-60, which depend upon claim 55, and claims 62-66, which depend upon claim 61, are for the same reasons in condition for allowance and for reasons of the unique combinations recited in such claims.

9

CONCLUSION

It is submitted that the present application is presently in form for allowance. Such action is respectfully requested.

Respectfully submitted,

By   __/Shun Yao/_____
